IN MY ORD,

BANGALORE

Date 10th April 1943

To

The Secretary to Government,

Law Department,

Bangalore

Sir,

Underground drainage to the sites formed in 5 and 6 Crescent Road, High Grounds, Bangalore - Approval to the work being executed by the Hindustan Aircraft Ltd under the technical supervision of the Bangalore City Drainage Division

---

I have the honor to state that the Hindustan Aircraft Ltd, wanted underground drainage system to be effected in the sites formed in 5 and 6 Crescent Road, High Grounds, before the arrival of their American personnel who were expected to arrive shortly In view of the time limit fixed by the Company, which is not possible to observe, if the usual procedure with regard to work is followed, and also in view of the limited allotment of cement for the Bangalore City Drainage Division, the Special Officer suggested to the Hindustan Aircraft to get the work done by them under the technical supervision of the Department, 10 charges being paid for supervision

In submitting copies of correspondence between him and the Company on the above subject, the Special Officer requests approval of this office to the action taken

From the correspondence it is seen that an estimate for Rs 6030/-, based on schedule rates, has been sent to the Company, with the intimation that the Company will have to pay 10% for supervision charges The suggestion of the Special Officer has been accepted by the Assistant to the General Manager of the Company and the work has also been entrusted to one Mr H C Ramaswamy, Engineer and Contractor and the same approved by the Special Officer

Copies of the letter of the Special Officer and its enclosures are attached herewith for the information of Government

I request you to be so good as to obtain and convey approval of Government, under the circumstances, to the work of underground drainage to the sites formed in 5 and 6 Crescent Road, High Grounds, being executed by the Hindustan Aircraft Ltd, under the technical supervision of the Bangalore City Drainage Division for which 10 charges are payable by the Company

I have the honour to be,
Sir,
Your most obedient servant,

Director of Public Health

JBR

(P T O

Letter o 229 dated 30th March 1943 from the Special Officer, City Drainage Division, Ban alo e, to the Director of Public Health in Mysore, Ban alore

Subject - Under round drainage to the sites formed in 5 and 6, resent Road, High Grounds, Ban alore

—

I have the honour to submit herewith copies of letters received fro Mr H.G Pello, Assistant eneral anager, Hindustan Aircraft Ltd. Ban alore, regarding the above noted subject and a copy of the reply sent by me to him The procedure suggested in my letter is due to the time limit set by the Hindustan Aircraft Ltd , and may kindly be approved The work will be supervised by us and the choice of the contractor and the execution and payment will all be theirs A deman draft for supervision charges will be sent and will have to be paid b them at the usual rates of 10 which will be credited to Government

The procedure adopted under the circumstances may kindly be approved The estimate for the work amounts to Rs 6,030/-

Letter o 644 dated 30th March 1943 from the Special Officer, City Drainage Division, Ban alore, to Mr H G Pello, Asst eneral Manager, Hindustan Aircraft Ltd , Ban alore

—

With reference to your No L/43/101 dated 16th March 1943 requesting that an estimate for the above work may be sent to you at an early date for approval and allocation of necessary funds for the above ork, I write to state that if the work has to be executed by this Division, sanction of Government has to be first obtained afte the estimate is approved by you enders will have to be invited after the estimate is sanctioned by Government and the work started on the acceptance of tender all these formalities will take som time and it is doubtful if the work could be completed within the tim specified by you

oreover the limited allotment of cement for this Division has already been used up for the several important works already in prog and it will be very difficult to obtain the cement required for this

In view of these difficulties, it seems desirable that the work may be got done by you alone under the technical supervision of this Department and as per the specifications laid down by Government for underground drainage works This has been explained to Mr D Subba Assistant to the eneral anager, Hindustan Aircraft Ltd , who was he on the 26th instant and he is also agreeable to this suggestion It was explained by Mr Subba Rao that the work has already been entruste to Mr H S Ramaswamy, Engineer and contractor and the same was approve by me, as he has considerable experience in the line

Arrangements have already been made to furnish the levels of the manholes to be constructed in the area

An approximate estimate amounting to Rs 6,030/- based on the schedule rates of this Division is herewith forwarded for information and guidance Since there has been considerable increase in the cos of materials and labour, the estimate should be regarded as purely approximate and reasonable rates may be arrived at for the various items of works charge of 10 towards supervision charges will have to be also paid by you to this Department

Letter No L/43/88 dated 6th March 1943 from Dr H Mello, Assistant General Manager, Hindustan Aircraft Ltd , Bangalore, to the Special Officer, City Drainage Division, Bangalore

--

We are forwarding herewith our Drawing No 889 showing the division of No 5 Crescent road and the adjacent building Covaikam at High Grounds, Bangalore, into a number of plots along with a main and subsidiary road to serve these units

We understand that provision of underground drainage with a manhole up to the point X marked by an asterisk in the accompanying plan has been made by your Department

As we propose to effect under ground drainage system for these new units and lead the flow to this manhole, we shall feel highly obliged if you will kindly give us details of the levels of this manhole

Your co-operation in effecting early completion will be very much appreciated as we expected to have these buildings ready for occupation by our American personnel shortly expected to arrive

---

Letter No L/43/101 dated 16th March 1943 from Dr H Mello, Assistant General Manager, Hindustan Aircraft Ltd , Bangalore, to the Special Officer, City Drainage Division, Bangalore

--

Underground drainage to the sites formed in 5 and 6 Crescent road, High Grounds, Bangalore

We acknowledge with thanks receipt of your letter 610 to 611 of 11th instant and note that the line has to be extended to a point 600 ft beyond point A marked by you on the plan and that this work will have to be carried out under departmental supervision

We request you to kindly prepare an estimate for this work and forward the same to us at an early date for approval and allocation of necessary funds for starting the work
